IMPLEMENTATION PHASE
REPLICATION PHASE
EXPLOITATION PHASE
Replication of modeling and risk assesment methods from other case studies
Hazard Modeling
Impact & Resilience Assessment
Adaptation measeures
Scenarios definition
Trials
Hazard Modeling
Impact & Resilience Assessment
Adaptation measeures
Scenarios definition
Mini trials
• Adaptation measures
• "Best case study scenarios"
• Good data availabity
• Well-known climate hazards and impact assessment methods
• Less resources
• Suboptimal data availability
• Coarse climate data
• Limited data/knowledge/tools for hazard & impact assessment
• Comunidad Valenciana (ES)
• Region of Central Macedonia (GR)
• Regione Campania (IT)
• Upper Austria (AT)
• Crete (GR)
• Naples Metropolitan Area (IT)
• Greater London (UK)
